  CPP
  HTML,CSS,JAVASCRIPT,REACT
  PYTHON

RELEVANT PROJECTS

FRONTEND: PROJECT- TODAY NEWS
Key Skills: REACT
Using the News API, we can see news from several categories here. The API offers newsfrom a variety of sources, covering a range ofsubjects including technology, sports,entertainment, and politics. Users can keepup with the latest news by reading the newsarticles that have been retrieved andpresented on the website.

Spotify Clone
Key Skills: HTML,CSS,JAVASCRIPT
This webpage is a replica of the well-known music streaming application Spotify. It allows users to listen to songs by Arijit Singh, and provides buttons for playback control (stop, previous, and next). The webpage also has a search bar that users can use to find specific songs or artists. Additionally, the webpage has a list of popular songs by Arijit Singh, which users can browse through.
